

Risk Profile

This is the information provided to us which enabled your policy terms and conditions to be calculated. For the purpose of this insurance this constitutes your fair presentation of the risk.

A fair presentation of the risk is one :

- which discloses to us every material circumstance which you know of or ought to know of, or
- gives us sufficient information to put us on notice that we will need to make further enquiries for the purpose of revealing those material circumstances, and
- which makes that disclosure in a manner which is reasonably clear and accessible to us, and
- in which every material representation as to a matter of fact is substantially correct and every material representation as to a matter of expectation or belief is made in good faith.

A material circumstance is one that would influence our decision as to whether or not to agree to insure you and, if so, the terms of that insurance. If you are in any doubt as to whether a circumstance is material you should disclose it to us.

We recommend that you check this information for accuracy and let us know, within 14 days of inception/renewal, of any inaccuracies or changes required. Where corrections or changes are required we reserve the right to recalculate the policy terms and conditions accordingly. Failure to advise us of corrections or changes or to make a fair presentation of the risk could prejudice, reduce or modify your rights under the policy
