How we calculate your gas cost?

Gas is a natural product. One unit does not always produce exactly the same amount of energy. In order to price energy from gas consistently, we convert your units used into kiloWatt hours of energy, using the following formula:

a. metric units used	See detail m ³
b. x calorific value	See detail
c. x volume correction	1.0226400
d. ÷ kWh conversion	3.6
e. = kWh	See detail
