If we show a recommended payment amount in the summary of your account section in this statement, this means that you are in persistent debt. We have included more information about your persistent debt balance later in this statement. We will also write to you separately with further information about this.

How interest is charged

We calculate interest daily based on the total amount you owe. We add together all the daily interest amounts in each statement period and add the total to your balance on your statement date. The sooner you make your payments, even before the payment due date, the less interest you will pay. There are some exceptions to these interest rules. Details are available within your terms and conditions.

Estimated interest

This is an estimate of the Interest you'll have to pay next month. It assumes:

- you pay only the minimum due
- you pay by the due date
- you have no more transactions before your next statement
- you don't change your statement date
- your standard interest rates and the way we calculate interest don't change

The estimate does not include reduced interest if a promotional rate starts before your next statement is produced.

Important information about Promotional Offers

You will lose any promotional offers if we do not receive your minimum payment on time or you go over your credit limit. The standard rate will apply on the remaining balance.

SUMMARY BOX

The information contained in this table summarises the key product features not displayed elsewhere on the statement and is not intended to replace any terms and conditions.

Interest-free period	Maximum 56 days for purchases. No interest-free period on cash transactions. There is no interest-free period for balance transfers or money transfers (if available) where these are outside promotional offers.
Interest charging information	We calculate interest daily based on the total amount you owe. We add together all the daily interest amounts in each statement period and add the total to your balance on your statement date. There are three exceptions to this rule: · Annual fees: We do not charge interest on annual fees. · Purchases: We do not charge interest on purchases made during your latest statement period if you pay off your full balance (including any balance transfers and money transfers) by the payment due date and you also paid your previous month's balance in full by the due date. · Default charges: We do not charge interest on default charges for the first 28 days after the day we give you notice (usually in your statement) that these charges are payable. After that we charge simple interest, so we will not charge interest on interest.
Allocation of payments	We use your payments to clear any overdue amounts before we apply them to your latest minimum payment. We will reduce the amount you owe in the following order: · any overdue amounts from previous statements; then · the remaining balance on your statement; then · any recent transactions not yet shown on your statement. We use your payments to pay off balances charged at the highest interest rate first and so on down to balances with the lowest interest rates. This means the more expensive balances are always paid off first. If there is more than one type of balance at the same interest rate, they are paid off in the following order: cash transactions, purchases, balance transfers and money transfers, and then default charges (plus any interest or charges incurred as a result of those balances). For each type of balance, your payments will pay off the oldest balance (and related fees, charges or insurance) first.
Minimum repayment	Your monthly minimum payment will be an amount equal to the higher of £5 or the total of any interest charged, any default charges payable, 1/12th of your annual fee (if applicable), any Payment Protection Cover (if applicable), and 1.00% of the balance you owe shown in your statement. If you owe less than £5 you must pay the full amount you owe.
Annual Fees	None
Other Fees	Cash Transactions: 5.00%. Balance Transfers and Money Transfers (if available): 5.00% for each individual Balance Transfer and Money Transfer.
Non-sterling transactions (foreign usage)	Payment scheme exchange rate: For rates please call Customer Services on the number above. Indicative rates can also be found at: Mastercard - www.mastercard.com/global/currencyconversion/index.html VISA - www.visaeurope.com/en/cardholders/exchange_rates.aspx One or more of the following may apply: Non-sterling transaction fee: 2.95% of the amount of the sterling transaction value. Cash transaction fee: 5.00%
Default charges	Missed Payment charge: £12
