cPanel Web Services provide cPanel, WHM, and Webmail services over HTTP and HTTPS

This interface allows you to configure various aspects of cPanel Web Services' behavior.

TLS/SSL Cipher List

This is a standard format list of the TLS/SSL ciphers cPanel Web Services should use. Typically this will only need to be adjusted for PCI compliance.

TLS/SSL Protocols

This is a standard format list of the TLS/SSL protocols cPanel Web Services should use. Typically this will only need to be adjusted for PCI compliance.
