Change Hostname

Instructions

It is important to choose a hostname that you will not be using for any account. You should choose something that will be socially acceptable, as it will appear in all mail headers. Your hostname must be a FQDN (FULLY QUALIFIED DOMAIN NAME). In English, a hostname should consist of a name and a domain name. All valid hostnames should have 2 dots in them. Hostnames should never begin with "www". Hostnames should also not begin with a digit, nor end with a hyphen ("-").

Current Hostname

vps.wingpath.co.uk

Change Hostname

New Hostname:

Sample Hostnames

- fred.em445webhosting.com
- gravity.mywebhostnew.com
- rr4.rrhosting.com

Ten Randomly Generated Hostnames

- chimolitha.wingpath.co.uk
- lathspell.wingpath.co.uk
- hirgon.wingpath.co.uk
- tnuctipun.wingpath.co.uk
- holbytla.wingpath.co.uk
- glorfindel.wingpath.co.uk
- brego.wingpath.co.uk
- milo.wingpath.co.uk
- butterbur.wingpath.co.uk
- davis.wingpath.co.uk
