Edit DNS Zone

Editing zone "wingpath.co.uk"

This interface presents raw, undecoded DNS zone records. To make changes to these records, you must follow the quoting and escaping conventions described in [RFC 1035](#).

The system concatenates character strings in TXT record values into a single string.

The system stores CAA records in the [RFC 3597](#) format.

```
Domain          TTL      Record Type
; cPanel first:11.34.0.9 (update_time):1582633510 Cpanel::ZoneFile::VERSION:1.3 hostname:vps.wingpath.co.uk latest:84
; Modified by Web Host Manager
; Zone File for wingpath.co.uk
$TTL 14400
```
