## Our testing explained

### PRODUCT SELECTION

To decide on product types for testing, we talk to manufacturers, retailers and industry experts, and look at market reports, to find out about bestsellers and forthcoming launches. The models that we

test include, where possible, the most recently launched bestsellers from the most popular brands, models with innovative features and affordable less well-known brands. We're independent and everything we test is paid for in full.

### RATINGS

#### Which? Best Buy

This coveted award goes to products that perform consistently well in rigorous tests and excel in all main measures, achieving high total test scores.

#### Which? Don't Buy

This marks products that perform extremely poorly

in one or more key tests, achieving very low total test scores.

#### Exceptional Value

This award goes to Best Buys that are outstandingly well priced as well as being of superb quality in our testing.
