

Log in to www.which.co.uk to try the Which? Product Picker

Don't forget that as a Which? member you have access to Product Picker – a powerful comparison tool that allows you to search for the right product for you and to view ratings side by side in just three easy steps

1 Log in to which.co.uk and select a product category you would like to compare – for example, digital cameras. Click 'Compare products'.

Use the Product Picker to search for products. You can select specific brands and models or view only Best Buys. Click the 'Find Matching Products' button.

If the results are too broad, you can tailor your search. Click the 'advanced' tab to search for specific features or good ratings, such as image quality.

2 A list of products matching your search criteria will be displayed. Click the 'Compare' button on the models you would like to view side by side. You can look at up to three models side by side at a time.

3 Click the 'Compare' tab to view the results and ratings of your chosen models side by side. You can easily remove models and add others if you would like.

As well...

The Product Picker also features icons (right) which offer help and more information. Click on them to find out more about the features and products. The Which? Product Picker has three tabs (below) allowing you to navigate during your search. You can click between them without losing your search results.

LOGGING IN TO WHICH? ONLINE

To log in to which.co.uk you will need your username (usually your membership number or, if you have changed it, your email address) and your password (your surname in CAPITAL letters). For help logging in visit www.which.co.uk/loginhelp
