

What's new on which.co.uk

Did you know that you can see our experts in action in online video guides that cover everything from advice on cutting household bills and growing veg to the highlights of this year's British Motor Show?

We're adding to our online video library all the time. Visit www.which.co.uk/iphone for our recent video review of the iPhone 3G, which includes an interactive guide to its new features.

Need help setting up your new TV? Can't tell a Scart from an HDMI socket? Not sure if your TV, DVD and set-top box are connected optimally? Our TV connection wizard at www.which.co.uk/advice/setting-up-your-tv can help.

You can compare your equipment visually, and connect it step by step to get the best picture and sound for your setup. It's easy to use, and you can return to it as you add new kit, such as surround sound or a set-top box.

The latest edition of the Which? podcast is all about saving money. To find out about the best deals for your savings, and how to make your money work harder so you don't have to, download the file at www.which.co.uk/podcast, then listen to our advice at your leisure.

This month we also have a special podcast interview with top chef Heston Blumenthal (below).

We'll be bringing you more podcasts containing detailed money and technology advice in the coming months.

Main features from March to August 2008 plus corrections (+) on these topics. For this month's reports, see p2. For a full index to 2007 *Which?* reports, see December 2007
